

CFPB Consumer Complaints Intelligence

Strategic Risk & Opportunity Assessment

American Express | Senior Leadership Briefing

2025-01-01 – 2026-03-31 | 196,835 Complaints | 9 Competitors

Agenda

Two content slides + supporting appendix

1. Amex Holds a Volume Advantage — But Risk Is Concentrated and Accelerating

2. Three P1 Actions Can Address 53% of Complaints and the Prepaid Outlier

A. Appendix — Methodology, Charts, and Data Limitations

Slide 1 — Amex Holds a Volume Advantage — But Three Issue Clusters Are Accelerating Toward Regulatory Risk

Evidence from 196,835 CFPB complaints across 9 institutions

6.9%

Share (Rank 7/9)

+16%

YoY Q1 Growth

53%

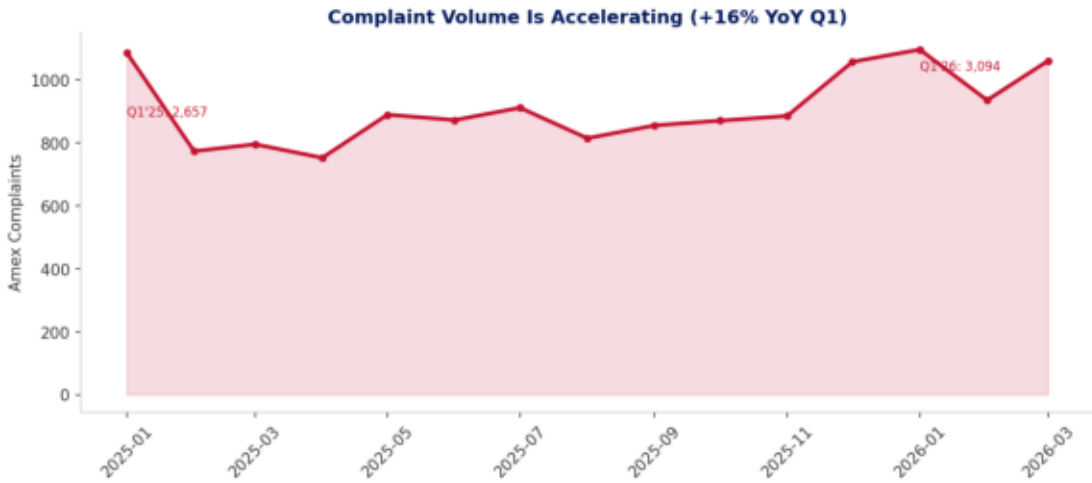

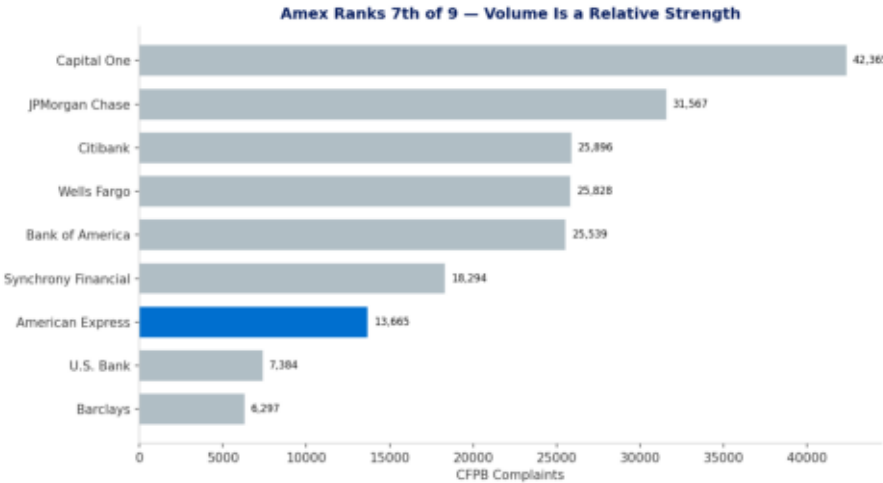

Top 5 Issues

78%

Prepaid Outlier

99.0%

Timely Response

SO WHAT: Amex ranks 7th of 9 on volume — a strength. But +16% YoY growth and 53% concentration in 5 issues mean leadership must act on Credit Reporting (2,248), Billing Disputes (1,784), and Prepaid (78% industry outlier) — not timeliness (99.0%).

Slide 2 — Three P1 Actions Can Reduce 53% of Complaints and Eliminate Amex's Biggest Competitive Outlier

Each action is supported by computed complaint data — not assumptions

REC-001: Credit reporting data inaccuracies drive #1 complaint c

Evidence: 2,248 FCRA-category complaints (16.5%); 771 on inadequate investigatio

Action: Bureau-data reconciliation pipeline; auto-resolve verifiable erro

target: 15–25% reduction in credit-reporting complaints

REC-002: Merchant billing disputes unresolved at scale

Evidence: 1,784 statement disputes (#2 issue); 83% of sub-issues are unresolved

Action: AI-assisted merchant dispute triage; 48-hr first-response SLA; pr

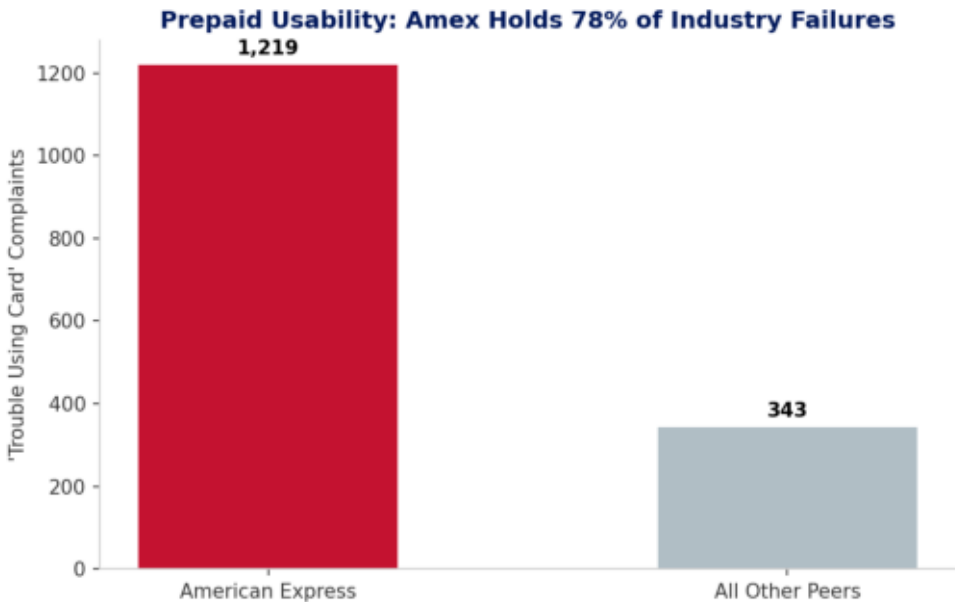

target: 20% faster resolution; 10% reduction in billing dispute volume

REC-003: Prepaid card activation/acceptance failures

Evidence: 78% industry share on card usage failures; 100% from Prepaid product l

Action: Root-cause analysis; partner merchant audit; product redesign or

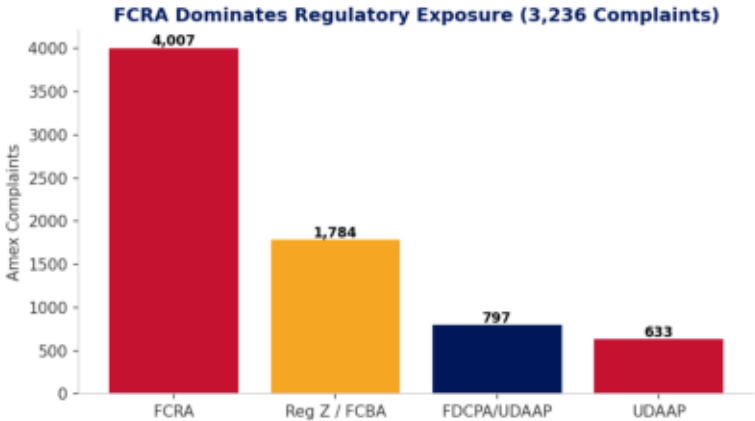

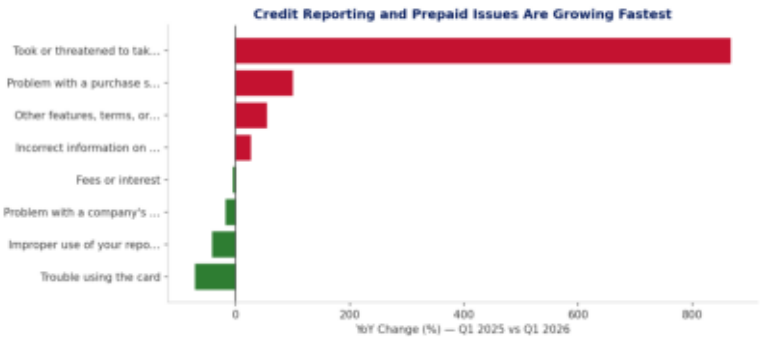

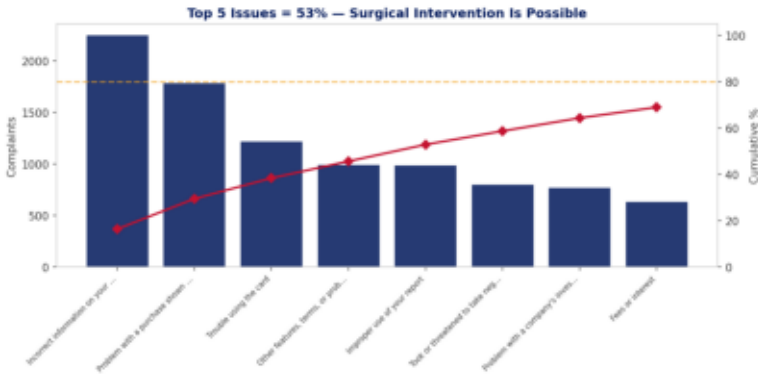

target: Reduce prepaid usage complaints by 50%+ within 6 months

OPPORTUNITY: 73% close with explanation (strength). Reinvest from minor timeliness gap (99.0% vs 99.7% peers) into prevention. Expected: stabilize YoY growth within 2 quarters.
